JUNE 2025 Edition

GLOBAL MISSION INTERNSHIP
PROGRAM

joni&friends™

*Joni and Friends ministry is a Christ-centred, international disability organization founded by Joni Erickson Tada in 1979, dedicated to supporting families living with Disability. The partnership with **Kampala School for the Physically Handicapped (KSPH)** began in **2013**, when Joni & Friends first sent interns from its partner institution African Renewal University (AFRU). These interns receive training through the **Beyond Suffering curriculum**, then apply their knowledge across classroom assistance, family retreats, rehabilitation, vocational support, and inclusive ministry.*

DIRECTOR'S REMARKS

Great thanks to Joni & Friends and volunteers for living out Christ's compassion, inclusivity, and service during the school visit at KSPH. Your presence fostered deep connection, created meaningful relationships, and brought Gospel-centred joy. We're truly grateful for the time they spent at our school—to continue nurturing unity, shared purpose, and spiritual growth together. *"I am looking forward to the possibility of welcoming you again. With gratitude and joy,"*

Mrs. JOY MWESIGWA

TEACHER'S EXPECTATIONS

Teachers expect that, following their participation in Joni & Friends activities, students will return with greater confidence and pride, show more kindness and empathy toward others, step up in leadership and support roles, carry forward spiritual resilience and community-building habits, and engage more deeply and effectively in their academic learning.
