March 2026 Edition

NSSF at 40, rolls out nationwide CSR Projects transforming lives.

Wheelchair and furniture

Stoves and Cooker

As part of its 40-year milestone, KSPH benefited as one of the NSSF (CSR) initiatives aimed at making a meaningful impact across communities. Support received cut across different areas, a number of wheelchairs to improve individual children's mobility, energy saving stoves and cooker to support the vocational skilling of the children. A big number of adapted wheelchair tables and CP chairs to cater for specific children's learning and positioning needs. And finally, an assortment of fruit seedlings to boost both children's farming skills and deity. The contribution touched every aspect of the children's need at school reflecting NSSF's commitment to inclusion, and improving the lives of vulnerable groups.

A new chapter for learning and possibility

Recently a we proudly received tablets that will support our students in building essential digital skills and exploring new ways of learning.

For our learners, this is more than technology it's access, confidence, and independence. It means engaging with the world in new ways and unlocking opportunities beyond the classroom. We are grateful to partners like **Simplifi Networks**, through **I Profile Foundation**, for making this possible and for investing in a more inclusive, digitally empowered future for every child at KSPH.
